

HB 453 -- AUTOMATED TRAFFIC ENFORCEMENT SYSTEMS

SPONSOR: English

This bill requires, in order for any traffic violation that is based on a photograph or video taken by an automated traffic enforcement system to be valid, the photograph or video must depict a frontal image of the driver of the vehicle. An "automated traffic enforcement system" must mean a camera, optical device, electronic system, or other surveillance system designed to record and produce photographic images, video, or other digital data of a motor vehicle, a motor vehicle's operator, or both, violating a traffic control signal, speed restriction, or other traffic law, ordinance, or regulation.
